

# TRI-CLAMP GASKET TYPE 2 MADE OF FKM [STANDARD WITH LIP]

0275TC02

Tri-clamp seals, also known as clamp seals, are seals for highly hygienic [aseptic] applications. These seals are used as clamp connections [clamp connections] in the food, chemical and pharmaceutical industries. Type 2 is equipped with an additional lip on the outer edge. This lip allows the seal to be positioned on the Tri-Clamp before it is fixed with a clamp without it falling off.

## Operating data

Temperatur [min]	-20 °C
Temperatur [max]	200 °C
